Peace On Earth; Goodwill Toward Men

This is the season when the old Christmas song of the angels, "Peace on earth, goodwill toward men," will be sung throughout the world, when from press and pulpit the glories of peace and goodwill among all men and nations will be proclaimed, when exhortations will be voiced urging all people by precept and the force of example to do what lies in their power to promote these essential qualities at home and abroad.

Perhaps never before in the world's history did there exist a more earnest and widespread desire for international peace and goodwill, and the greatest and most outstanding evidences of this is to be found in the signing of the Locarno treaties, and in the growing influence of the League of Nations.

There is also evidence in many countries, and happily so in Canada, a larger and growing spirit of tolerance. More and more there is developing a willingness among people to let bygones be bygones, to accord to others that same liberty of thought in matters of language, religion, politics, and racial customs which one demands for oneself. Canadians generally are not now concerning themselves with petty issues as to whether their neighbors of foreign birth continue to make use of their mother tongue, or worship God in some manner different from their own. There is, in Canada, a growing acceptance of a man for his own character and qualities quite apart from his racial origin, the language he speaks, or the altar at which he worships. The general recognition and acceptance of such views is essential to the development of peace and goodwill.

Unfortunately, there is one section of the world where, as yet, this spirit does not hold sway; where, on the contrary, all the old racial, lingual and religious animosities are flaming, and still threaten the peace of the world.

The reference is to that group of small independent nations in Southeastern Europe known as the Balkan States. For the past three-quarters of a century or more this conglomerate mixture of races and religions has disturbed the peace of Europe, and hardly a year passes without the threat of a new conflagration. While the great nations of the world are anxiously striving for peace, these little States remain hot beds of suspicion and intrigue, seemingly ever anxious to fly at each other. Their populations have become so mixed that in each country there are racial and religious minorities always affording trouble and giving excuse for the enforcement of oppressive policies and acts of ruthlessness against them.

It was not a pretty nor encouraging picture of the situation in the Balkans which was drawn by Hugh Edwards, M.P. in the British House of Commons, in an address delivered before the Women's Canadian Club of Montreal, on the occasion of the meeting of the Inter-Parliamentary Union at Ottawa. Contrasting the spirit and policy of the British Empire in its treatment of minorities, Mr. Edwards said:

"The fierce and vehement discussion which took place in the Inter-Parliamentary Union meeting at Ottawa has made it very evident that these little Balkan States have not yet laid to heart the agonizing memories of the late war. The Balkan Peninsula is still a seething cauldron of fierce, racial antagonisms; and unless some magic change is soon wrought in the temper of these little states it will not be long before the pot boils over again and drenches Europe once more with blood. We all rejoiced in the signing of that treaty with Germany at Locarno. It makes war impossible in the west of Europe. I am uneasy for the East, when I find these little states showing such bitterness and such fierce racial antagonisms."

Similar feelings retarded Canada's progress in the past. On more than one occasion great national questions were decided, not on their merits, but as the result of the most unworthy and sinister racial and religious propaganda. A better day has dawned in this Dominion, and the people will no longer countenance appeals of this nature. But Canada's interests require the removal of all such danger spots throughout the world. Our people may not be able directly to do anything very effective in the Balkans, but Canadians can by staunch support of the League of Nations, and by a friendly and brotherly attitude towards such of these Balkan peoples as have come to live in Canada, help materially to develop a right spirit and thus assist to overcome these old antagonisms. These newcomers in Canada will pass on the word to their friends and relatives in their former Balkan homes that there is a better way, while the League of Nations offers the only hope through which official and organized action can be taken among the Balkan peoples themselves.

An Interesting Invention

Scotch Linen Weaver Has Treadmill Driven By Mice

In a certain town in Scotland is an interesting historical invention of a linen weaver, by the name of David Hutton. It is a miniature treadmill to be driven by mice. The treadmill was connected to a rough machine designed for the purpose of spinning

sewing thread. Records relate how in this way the ingenious Scotchman made a clear profit of 6s. per mouse per year. Indeed, he suggested building 10,000 similar mouse mills, which would yield a profit of £2,300 per annum, but the project fell through.

Heavy Fire Losses

Says the Annual Fire Loss in Canada and U. S. is \$558,000,000

The board of directors of the International Association of Fire Chiefs and Engineers, headed by Chief James Armstrong, of Kingston, president, went into executive session at Los Angeles to formulate an educational programme to reduce the enormous fire losses in the United States and Canada.

Chief Armstrong declared that "education is the only solution of the problem, which involves a yearly fire loss of \$558,000,000 and which still is growing."

A bit in the horse's mouth doesn't prevent his getting hungry.

Minard's Liniment for chilblains

New Industry At Coast

Raising Pedigree Rabbits is Fast Becoming Paying Industry

A little-noticed industry, but one that bids fair to attain large proportions on Vancouver Island, is rising almost in the middle of the city and around suburban homes—pedigree rabbit rearing. On the Saanich Peninsula alone there are now more than twenty rabbitries, some already operating on a large scale, and others' fast growing to sizable proportions.

While the production of thoroughbred rabbits for stock purposes is at present the most paying end of the modern rabbitry business, the possibilities of fur-raising and meat production loom large on the market side of the industry now in its infant stages compared to the proportions it has reached in other countries.

It may come as a surprise to the layman to learn that a thoroughbred rabbit brings \$100 to \$200 in the market for breeding purposes, and that it is a common thing for certain breeds to attain a weight of from fifteen to eighteen pounds.

The growing demand for furs for women's dresses and other uses has led to a great increase in the use of dyed furs. The rabbit supplies a very large percentage of the artificially prepared furs, passing under trade names.

HOW TO RELIEVE CHILDREN'S COLDS

Avoid Serious Results by Using Baby's Own Tablets

When a child shows the first symptoms of a cold, such as sneezing, redness of the eyes, clogged or running nose, prompt measures for relief may avert serious results. Mothers should always have on hand some simple, safe and effective remedy for immediate use.

Baby's Own Tablets act quickly contain no opiates or narcotics, are tasteless and harmless. Mrs. Joseph Cadieux, Holyoke, Mass., says: "I have used Baby's Own Tablets for my children and find them a very satisfactory medicine. When my little boy had a cold I gave him the Tablets at night and he was well next day. I give them to the children for constipation and they always do good. I think Baby's Own Tablets are much easier to give a child than liquid medicine. I recommend the Tablets to all mothers who have small children and believe they should always be kept on hand."

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville.

Discovers New Metal

One-Third As Heavy As Bronze, Brass Or Iron, Much Stronger

The discovery of a new metal one-third as heavy as bronze, brass or cast iron, and three times as strong as any of them, has been reported from the University of Kentucky. The discoverer, Mr. Harold McLean, is an Orillia old boy, and his parents and other relatives still live in that town. Mr. McLean has been doing research work on his venture for nine years, and, beyond saying that the materials for the new metal are plentiful, has not divulged his formula to anyone, according to The Orillia Packet.

The Last Asthma Attack may really be the last one if prompt measures are taken. Dr. J. D. Kellogg's Asthma Remedy will safeguard you. It will penetrate to the smallest bronchial passage and bring about a healthy condition. It always relieves and its continued use often has a permanent effect. Why not get this long-famous remedy to-day and commence its use? Inhaled as smoke or vapor it is equally effective.

A Clever Retort

"In introducing you to my friend, the lecturer, I ought to say that he is not so stupid as he looks," remarked the would-be humorous chairman. "That," said the lecturer, without a smile, "is just the difference between the chairman and myself."—Public Inquirer.

An excellent protection against worms can be got in Miller's Worm Powders. They render the stomach and intestines untenable to them. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and that their operation is altogether health-giving.

Big Real Estate Sale

One of the biggest real estate deals in London's history was concluded when Lord Howard de Waldon sold 40 acres of London property for a reported sum of \$15,000,000. The acreage includes some of the richest and some of the poorest streets in the west end of London.

The history of Iceland for the past 1,000 years records no more than two cases of theft.

Stop that cold with Minard's Liniment

Gerald.—"May I offer you my umbrella, miss?"

Prospects Are Most Encouraging

Outlook in the West Now Better Than For Many Years

"Never, to my mind, has the future of Canada and of the west looked so bright, for in our bountiful wheat crop we possess what the majority of other countries are short of," said John Wickstrand, the well known western railway contractor, as reported in the Manitoba Free Press.

Mr. Wickstrand, who has just returned from a tour of the west, said that even the United States was this year an importer of wheat for domestic purposes. He considered, he said, that a still further rise in price was certain.

"At first," said Mr. Wickstrand, "I was not in favor of the wheat pool, but I am heartily in favor of it now and I am convinced that it will be a big factor in the marketing of wheat. The regular and systematic release of wheat throughout the year stabilizes the price and the interim payments keep the farmer more or less always in funds. Besides the knowledge that the pool actually has the wheat for sale prevents, to a great extent, outside moves to smash the market. If any of the large speculators try to lower the price by flooding the market, there is nothing to prevent the pool from buying in and forcing them to deliver. This fact, combined with the apparent world shortage, makes me sure the price will rise."

In his concluding remarks, Mr. Wickstrand said that the delay, early on in the harvesting, had not materially affected the grade for the really cold weather of two months ago was a preventative to actual harm taking place inside the kernel.

Canada's Trade Increases

Trade With Canada and Great Britain and With U. S. is Expanding

Substantial increases in the export trade of Canada with Great Britain and with the United States during the past twelve months are shown in trade summaries issued by the Dominion bureau of statistics. Canadian produce valued at \$458,000,000 has gone to Great Britain in the twelve months ended October, 1924, while in the twelve months ended October, 1924, the value of Canadian exports to Great Britain was \$393,000,000.

Imports from Great Britain also increased in the same period. In the year ended October, 1924, the value of imports from Great Britain was \$159,000,000 in the year ended last October. The export trade improved in all the general classifications but notably in agricultural and animal products.

Cheese exports rose from 50,000 pounds to over 8,000,000 pounds.

Canada At Dunedin, N.Z.

Exhibits From Canada Attract Unusual Attention At Big Exhibition

The success of the Canadian Government exhibit at Wembley was apparently being duplicated in the exhibition at Dunedin, New Zealand. The Otago Daily Times, published at Dunedin on November 30th, referred to the Canadian exhibition in the following terms:

"The wonderful daylight, twilight and moonlight effects in the Canadian diorama are attracting unusual interest and each day throngs of visitors stand watching the transformation of the hillside, mountains and forest from the yellow sunlight slopes to the soft twilight and the darkness of night. Then comes the silvery moonlight that bathes the living picture with liquid beauty and glints on the rushing tumbling cascade. The effect cannot be surpassed in any part of the exhibition."

25,000,000 Pounds Of Butter

Alberta is Rapidly Increasing Production of Creamery Butter

Last year Alberta exported to Britain and other countries over 4,000,000 pounds of butter, which was a little less than one-fifth of the total production of creamery butter. During the present season it is anticipated that the surplus for export will increase to 7,000,000 pounds, which would be seven times what the exportable surplus was four years ago. This is some indication of the manner in which the dairy industry has grown in this province. The increase in exportable surplus is in a great degree due to the improvement in quality, under the official cream grading system inaugurated by the Provincial Government. The anticipation is that the total production of creamery butter will this year reach 25,000,000 pounds.

Weather was probably invented by his Satanic majesty so that people would have something to growl about when there was nothing else at hand.

Early as 1500 A.D., goldfish were brought to Japan from China.

Disarmament Is Only Solution

Locarno Pact Merely Marks Beginning Of European Peace

What is to come after Locarno? This is the question the British press and public are asking. Ramsay MacDonald and Lloyd George, both former premiers, Viscount Cecil and Austen Chamberlain, the foreign secretary, have repeatedly stated that the Locarno pact, which was signed Dec. 1, merely marks the beginning of Europe's peace. It settles the differences between France and Germany but the other European states and Great Britain now need guarantees against war. Disarmament is conceded to be the only solution, but how this can be effected with safety and justice to all is a burning question.

Viscount Cecil indicated recently in the House of Lords that Britain was seriously considering a new disarmament conference and will shortly bring out disarmament plans of its own, but the difficulty of doing this is pointed out in the press, because of Britain's insular position and the resultant dangers she stands from enemy air and submarine forces. Though Germany and France are at peace, their air and undersea forces still menace the British Isles.

New Preference Rules Of New Zealand

Regulation Will Affect Canadian Assembly Branches of American Firms

New Zealand is doubling the percentage of British labor and materials required in imports under British preference rates. The present percentage of "British origin" required is twenty-five. The new regulations which come into force on April 1 next, require fifty.

The effect of this will be that Canadian goods exported to New Zealand will have to be fifty per cent. Canadian labor and materials, if they are to get the advantage of the British preference. The increase will particularly affect Canadian branches of American firms which are only assembling, or partly manufacturing, in Canada.

Heavy Grain Marketing

All records in the history of transportation of western crops were smashed on Monday, November 16th, when 5,128 cars were inspected at Winnipeg and other western points, whilst marketings totalled \$5,897,851 bushels.

The Retreat From Mons

Fine Tribute Paid to British By a Former Enemy

War thoughts bring to my mind a story for Britons it would be well that we should all know. The tale is told in Sir Almeric Fitzroy's "Memoirs," and speaks well, not alone for the British race, but for our late enemy as well. Indeed, we may ask whether a finer tribute has ever been paid to any country by a former enemy.

I quote the story in Sir Almeric's own words: "When Colonel Stewart Roddie met Von Kluck, at Berlin, in the spring of 1921, and held out his hand, Von Kluck stepped backwards, and raised his right hand as if in protest. Then he spoke: 'Herr Oberst, there is one thing I wish to say to you before I take your hand. It is something I have always intended to say to the first British officer I met after the war. In the whole history of the world there is, in my opinion, no military feat which has ever been excelled or equalled as that accomplished by the first British army in the last war.'"

Wayfarer in Overseas.

German Press Praises Chamberlain

The action of Sir Austen Chamberlain, the British foreign secretary, in branding as false the war-time story of a German "corpse factory" is characterized by the German press as a creditable and statesman-like act.

A German library which is to contain everything published in the German language since 1913 has been established in Leipzig.

Children Always Thrive

ON SCOTT'S EMULSION OF PURE COD-LIVER OIL IT ABUNDANTS IN VITAMINS

New Super Warship

Proposed Monster Which the British Admiralty Will Consider Building

A sensational new warship for Great Britain which is said not to violate the terms of the Washington disarmament treaty, has been designed by Sir George Thurston, a naval architect, who publishes the details in Brassey's annual.

Thurston's vessel is a composite ship which is designed to supersede both the capital ship and the aircraft carrier. This proposed new monster, which the admiralty will consider, is of 28,000 tons, mounts six sixteen-inch guns, has armor plate from ten to twelve inches thick, and a cruising speed of 26½ knots.

VISIONS OF YULETIDE

Have you ever had a vision of what this world
would be had there never been a Christmas time, and no
reason for one? We do not like to think of it, for it sure-
ly would be a black time in the world's history were we
to go back to the day when the Christ child had not
been born.

A good many things, we have to pass quite unap-
preciated until through some wrench of fortune they are
snatched away from us. Lovely things, beautiful things,
things we could scarcely do without far too often lie in
our hands with out bringing to us a single thrill of joy
or of thanksgiving. We have them; we enjoy them, but
we are not grateful for them. Only when we wake up
some morning and find that our treasure has been taken
away from us do we cry, "Oh, bring it back! I must have
it; I cannot live without it!"

Now we have our Christmas treasure. It has been
ours all our lives, so long that we have become accus-
tomed to it. We accept it and all that comes with it, as a
matter of course; and it means so little to us! We give
we get, and we do not stop to think why.

What if a new vision of the Christmas time were to
come to us in this year of our Lord 1925? What if we
were to take down a Book which has lain on the shelf so
long that the dust is deep on its covers and read once
more the story of that first Yuletide, the brightest and
the best and brightest day that ever came to this old world
and lingered over it until our souls beat warm once more,
and our hearts filled again with the love which was on
that day manifest toward all the world. What a new
day that would be in the lives of us all.

It may be so. A stone has too long lain at the door-
way of our hearts. Let us roll it away now, and let its
glory flood our lives and make us once more little child-
ren with a child's innocence, goodness and longing for
the happiness of everyone he knows!

OUR CHRISTMAS THOUGHTS

If human nature is the combination of self-seeking,
ambition and greed which some materialistic philosoph-
ers assert it is, if life is a contest in which all finer senti-
ments are subordinate to self-advancement and success
at any price, how is it that the spirit of Christmas has
not only endured but grown in power during 2,000
years? If the pessimists are right, it would seem that
the light would have been extinguished long since and
with it the spirit would have departed.

Were history and our daily lives not replete with
evidences—noble evidences too—of the unselfishness in
men's hearts, we might be impressed with the teachings
of the sordid and the carpings of the morbid. Christ-
mas is the symbol and a celebration of love—love which
is synonymous with charity and which our purest teach-
ing tell us is the finest attribute of the soul. We, who
during the past few weeks have watched the Yuletide
preparations, are prepared to say that they represent a
beautiful manifestation of of that attribute.

We have only to note the working girl taking home
at night her parcels, contributions wrung from the dole
of her necessities, in order that she may testify to her
love and bring a measure of cheer to some child, or some
relative, or some friend. Tired from her daily toil may-
hap, but in her eyes that something which transcends all
fatigue; transcends, in fact, everything else in the world
and comparable only to that which shone from a moth-
er's eyes upon the Babe of Bethlehem. In face of these
and so many other manifestations which we are all wit-
nessing during this season, what right has one of us to
say that the Light of the World grows dimmer?

Our hearts tell us there is no dimming. Let us be
thankful for the extra radiance of Christmas. Let us
seek to carry it into our daily lives. Our wish is, that
this occasion, at least, will help us to forget our tribula-
tions and sorrows, our complaints and animosities, and
that it will be to all a day of cheer and everything which
Yuletide typifies. The words of Tiny Tim have never
been improved upon and we here invoke them: "God
bless us all!"

A two year record in carloadings on Canadian rail-
ways was broken in the week ended Nov. 7, when a total
of 77870 cars were loaded. This figure surpasses the
1924 peak by 2,769 cars, and was greater by 773 cars than
the 1925 record established in the week ended October 17.
The cumulative total for 1925 for the first time passed the
corresponding 1924 total, according to the Dominion
Bureau of Statistics.

On The Road To Nelson

(1) A Canadian Pacific Lake Steamship plying between Nelson and Kaslo on the British Columbia lake district. (2) "The Canyon" near South Shewan on the Kootenay River. (3) Bonington Falls. (4) "The Pool" near Nelson on the Kootenay Lake, B.C.

On the road to Nelson, whether one enters from the east or west, new beauties charm the eye at every step. Murmuring pines and fir trees cast their shadows along sunny roads, while wayside flowers gladden the eye. Even in winter, it is equally picturesque, when snow crystals adorn the trees and shrubs, with flower-like shadows casting strange pictures across the soft snow covering the sleeping earth. For winter in the mountains of British Columbia is a season of joyous sport and out of door life! Along the way, as the Kootenay makes its downward dash to the Columbia, appear falls and rapids. Two of these are utilized for electric power, by the West Kootenay Power and Light Company, which distributes power for three hundred miles, and the City of Nelson power company, which provides its citizens with heat and light and power from this source. Beyond another of these rapids is the famous fishing ground, known as Shewan pool, where fishermen from all over the world have tried their luck through dark and sunny days. While the fishing may take time and patience, if the season or the bait is not just right, not so the scenery, for the beauty of the entire riverside may be seen from the car window when passing between Nelson and Castlegar, whence two routes are provided to the Pacific coast.

—Mrs. W. Garland Foster.

The Vision of Wealth

FEW men are entirely free from the pleasant but indefinite vision of some day "making it rich."

Those who, trusting their future to this vague illusion, spend all and save nothing, can never hope for independence.

All fortunes are not gained by theft alone, but the habit of systematic saving will bring you far along the road to prosperity.

COMING EVENTS

Aids under Coming Events 250 per cent count line, when otherwise advertised in The Call.

Dec. 24—"Daring Days" at Gleichen Com. Hall.

Dec. 25—Hockey match at Gleichen rink.

Jan 1-3—"Calgary Stampede" at Gleichen Com. Hall.

Dec. 31—22nd Battery New Year's Eve Dance, Gleichen Com. Hall.

Although Alberta did not come so prominently to the fore in seed grain winnings at Chicago this year as in previous years, the livestock exhibits sent west did excellently, particularly at the Toronto Royal where exhibitors from this province made remarkable winnings.

22ND BATTERY ANNUAL BALL NEW YEAR'S EVE

As the old year wanes interest increases in the Annual New Year's Dance, to be given by the 22nd Battery.

With happy memories of the two preceding annual dances flattery is looking forward with joyous anticipation to another night of real whole-some enjoyment.

Preparations are well forward, and the committees in charge feel confident that this night will far exceed any of its predecessors.

As the turkey supper is included in the ticket charge at 5c. are asked to secure their tickets as early as possible so that the committee will be able to make suitable provision for all who come. This is important.

Excellent music will be provided for the dance and several new features have been added to the mid-night revelry.

ST. ANDREW'S S.S. CHRISTMAS TREE

The children of St. Andrew's Sunday school enjoyed a very pleasant time at the Xmas Tree party, held in the Community Hall on Monday evening.

The ladies of the W. A. provided an excellent supper, which the children did full justice to. Many and various were the games played and the hall resounded to the mirth and joy of the children.

Just before the arrival of Santa, Patricia Irvine and Regine Tomlinson gave an excellent dialogue entitled "A Christmas Message," and just as they were finishing each other were heard in the distance, leader and leader came the sound of Santa's approaching sleigh then suddenly a great light fell upon all in the hall the lights went out, Santa had arrived, oh the joy, the joy, Santa had come. Santa said how pleased he was to be present again, and hoped that all the children would enjoy themselves and have a happy Christmas.

Santa had such a nice lot of gifts, and was very happy in giving them out. Just before he went all the children sang Santa, then, Santa cheer and thanked his for coming. Santa then called his dog team and gave him the sleigh and sent the sleigh and laughter of the children, drove away.

TOWN AND DISTRICT

Brown's bread is a loaf.

The town school closed for the holidays today.

If you make no good resolution take one to be a Gleichen booster throughout 1926.

Mrs. M. Buckley is prepared to do dressmaking and plain sewing at very reasonable prices.

The skating rink opened for the season last night and a real good evening's enjoyment was spent.

Everyone will want to see the Calgary stampede pictures New Year's afternoon or night on the following night.

Principal Porter and Miss Gilles, of our school staff will spend Xmas holidays in Calgary, and Miss Hall at her home in Orono.

The first hockey match of the season will be held in the Gleichen skating rink Xmas afternoon. Be on hand to boost your favorites.

Sunday morning it began to look a little more like Christmas with the light fall of snow, and the small boy may not get his sleigh into action.

Billy Graves and Doug, Young have charge of the rink for this winter and are preparing a set of rules, which they hope will meet with the approval of all lovers of this beautiful exercise.

Although few here the Gleichen U.F.W.A. were to hold a sale of home cooking in the Gleichen Community Hall dining room last Saturday afternoon, nevertheless the ladies had a very successful sale, disposing of everything they offered at good prices. It is ever sufficient to attract a good crowd and there are still some worrying because they missed something good to eat—cheer up fellows, they may do it again.
